Professional Profile As a capable and experienced CAD Engineer I am very good at making 3D compositions of buildings in order to establish where fittings, fixtures and utilities can be placed within a building before it is built to avoid any issues after the build. I am capable of creating virtual tours to assist other consultants working on projects.

- Knowledgeable.
- Sensible and practical.
- Approachable and Friendly.
- Focussed and attentive.
- Highly organised.
- Confident.
- Friendly.
- Flexible.
- Safe.

Professional Qualifications.

HND in Computer Aided Design.

Work History

January 2010 - Present

CAD Engineer, BT, London

Working for this large communications company it was my job to create 3D virtual tours of buildings that required installations of broadband and telephony services, so that the installation engineers would not have to physically visit the premises and could be assured of taking the correct equipment and supplies with them when they went to install. I would have to work from plans of the buildings, or photos, and create a true to life, scale version on computer.

January 2008- January 2010

CAD Engineer, Shipwright Services, London.

As a CAD Engineer in this shipbuilding services company it was my job to create 3D models of ships to see where improvements could be made to the build of the engines or other mechanics, and also to the build of the ship itself.

January 2007 – January 2008

CAD Engineer, Building Transitions, London

Working for this large building consultancy company it was my job to create models of buildings that were being proposed to be built, for several different factors including placement, social intrusion and pollution purposes. I would create models of the environment around and then incorporate the proposed build to demonstrate any possible improvements or problems it could create in the area. This would also assist the builders and architects in ensuring that the final build idea was plausible.

Education

GCSE 10xA Grades including English, Maths and Science.
Londonberry Comprehensive School
London
2001
