Professional Profile As a capable and experienced Technical Architect I am very good at planning and designing systems. I am capable of being in charge of whole projects, or focussing on one component of the system. I have a vast knowledge of systems from Oracle, Unix, TCP/IP and SQL Server, so I am capable of working on many different platforms.

- Knowledgeable.
- Sensible and practical.
- Approachable and Friendly.
- Focussed and attentive.
- Highly organised.
- Confident.
- Friendly.
- Flexible.
- Safe.

Professional Qualifications.

HND in Computer Aided Design.

Work History

January 2010 - Present

Technical Architect, BT, London

Working for this large communications company it was my job to develop and maintain the businesses online E commerce facilities. I would have to have regular meetings with the project managers and software developers in the company to ensure that the solutions offered were beneficial to the business and meeting the needs. I would have to solve any issues with the facility and reimplement it as soon as possible following problems.

January 2008- January 2010

Technical Architect, Shipwright Services, London.

As a Technical Architect in this shipbuilding services company it was my job to create records databases to collate and access clients details easily and keep records in a safe and confidential place. As we worked with many different language speakers it was important to design the system to recognise words in different languages so that records weren't hard to find if they were saved in a different language.

January 2007 – January 2008

Technical Architect, Building Transitions, London

Working for this large building consultancy company it was my job to create software and systems for the design staff to utilise when designing buildings. The systems had to work to the core beliefs and benefits of the company and made sure that all architects used one format of designing so that nothing was confused. I would have to ensure it was easy to use.

Education

GCSE 10xA Grades including English, Maths and Science.
Londonberry Comprehensive School
London
2001
